

Following is an index by author and an index by subject of all papers that have been published in the *IBM Systems Journal* since 1974. A composite index that combines these indexes with the abstracts of all of the papers listed in the indexes is available from IBM branch offices for \$2.00 each as order form number G321-5143. Order numbers for reprints of individual papers are included in the main entry for each paper in the Author Index.

Indexes for 1970 through 1974 appeared in Volume 13, Number 4 (1974), and indexes for 1962 through 1969 appeared in Volume 8, Number 4 (1969). Issues and reprints of papers covered by these previously published indexes are not available from IBM.
